C-11200

Circular Letter

Subject: Availability of OTLR Sections 1 and Section 7

To: MEMBERS AND PRIVATE CAR OWNERS

File Number: OTLR

This is to advise availability of the 2010 edition of the *Open Top Loading Rules - Section 1, General Rules for Loading All Commodities* and *Section 7, Rules for Loading All Commodities on Open Top Trailers and Containers for Rail Transport*. All sections of the OTLR Manual are shown on the attached order form. The manual specifies the requirements governing the loading and securement of commodities on open top rail cars, as well as open top intermodal trailers and containers to be transported on rail cars. The OTLR Manual provides listings of various AAR approved tie-down-related components, methods, and performance standards. In addition, it includes procedures for gaining AAR approval of these related items. These rules are mandatory for all shippers, loaders, load-adjustment parties and contractors, and rail carriers engaged in the movement or forwarding of open top shipments through North American rail interchange. These manuals are effective immediately and are now available.

An Order Form for purchase of the complete Open Top Manual or individual sections is attached for your convenience. Please note that open top shipper users of these manuals may obtain free copies by completing and returning the attached form to dwayne.florence@railinc.com. Once the form has been completed and processed by the AAR, a User ID and Password will be assigned which will allow the ability to download the manuals, free of charge. For further information on ordering publications, contact pubs@aar.com.

Current AAR copyright policy does not permit independent copying or distribution of the OTLR, either hard copy or electronic version. This includes posting of this or other AAR copyrighted material on company computer networks, Internet sites, or other methods of electronic distribution. This applies to AAR members and nonmembers alike. Please refer to the copyright statement within each manual for further details.

Sincerely,

Sincerely,
James P. Grady
